Joyful News!

The Cry is "Still They Come." WHAT?

Why beautiful goods, that will cause a great talk, As our old friend, M. Powers, has just returned from New York— And is receiving at his Store, Southeast corner of the A rich Spring and Summer Stock, which he'll sell very Imbracing clothing, and every article in the furnishing Which in beauty and durability are so "truly divine." He has coats and pants of almost every style and Most fashionably cut, and very neatly pressed and And as for handsome vests-he'll sell you one in a or the very least possible share of your cash. Nor forgetting old-line Whigs and Democrats, For whom he keeps a variety of suitable hats, The finest caps—all fancies sure to please— Both cloth and silk, and new style Japanese; Handsome shirts, and splendid cravats and collars, So to M. Powers don't neglect to bring your dollars; For with myriads we would now dispute,

Who dare say his garments fail to suit; Those most neat and fastidious in taste, Who oft in badly made clothes their money waste. But strange to say, for the very smallest sum, You feel inclined to expend at Power's Emporium, He will give you bargains so very rish are rare, That will compel you for mouths to wonder and stare. He keeps clothing to suit the large men and the small, And to credit our word, just give him a call. "Quick sales and small profits" is his motto long So to M. Powers' Store for bargains make haste.

The common belief that much of the uncertainty of Medical Practice arises from the bad quality of Medical substances, seems to acquire daily confirmation. Through faulty preparation and commercial competition, many preparations formerly regarded as of primary importance are gradually going out of use, while others produce effects and cause accidents that do not properly belong to them as described in the Pharmacopea. New remedies, as suggested and offered for trial are often found so imperfect, and varying so much in chemical character and strength that they are either condemned or received upon false premises, both equally at variance with the proper progress in are either condemned or received upon false premises, both equally at variance with the proper progress in therapeutics; whilst most practitioners daily feel that the Materia Medica is not rich enough either to lose its old remedies, or to sacrifice opportunities of acquiring new ones. A proper appreciation of these facts warrant the Subscribers in manufacturing and vending none but First Class Standard Preparations, with direct reference to the necessities of the profession and the requirements of the Pharmacopea. Cur Chemicals, Powders, Tinctures, Essential Oils, and in fact all of our Medicinal Preparations are selected and compounded with a view to the quality only, without regard to price.
